ON COVER – Columnar microbialites in the lacustrine Green River Formation, southwest Wyoming, used as an analog for lacustrine shrubby microbialite reservoirs in the pre-salt of the Kwanza Basin. Taken on a field trip led by Paul Buchhiem and Stan Awramik. See related article by Saller et al. on p. 1135 of the July 2016 issue of the *Bulletin*.

ARTICLES

Fluid flow and related diagenetic processes in a rift basin: Evidence from the fourth member of the Eocene Shahejie Formation interval, Dongying depression, Bohai Bay Basin, China
Benben Ma, Kenneth A. Eriksson, Yingchang Cao, Yancong Jia, Yanzhong Wang, and Benjamin C. Gill 1633

Integrating outcrop and subsurface data to assess the temporal evolution of a submarine channel–levee system
Emma A. Morris, David M. Hodgson, Stephen Flint, Rufus L. Brunt, Stefan M. Luthi, and Yolanda Kolenberg 1663

Pore and pore network evolution of Upper Cretaceous Boquillas (Eagle Ford–equivalent) mudrocks: Results from gold tube pyrolysis experiments
Lucy T. Ko, Robert G. Loucks, Tongwei Zhang, Stephen C. Ruppel, and Deyong Shao . . . 1693

Megaflaps adjacent to salt diapirs
Mark G. Rowan, Katherine A. Giles, Thomas E. Hearon IV, and J. Carl Fiduk 1723

Organic-geochemistry characterization of the Paleogene to Neogene source rocks in the Sayhut subbasin, Gulf of Aden Basin, with emphasis on organic-matter input and petroleum-generation potential
Mohammed Hail Hakimi and Abdulghani Faid Ahmed 1749

ACKNOWLEDGMENTS—

AAPG thanks the AAPG Foundation for financial support of this issue of the *Bulletin*.

The AAPG Editor thanks the following reviewers for their work on papers in this issue: Mohamed A. Barakat, Kirt M. Campion, Fabian Duque, Andrea Fildani, Stephen G. Franks, Milovan Fustic, Nathan W. Harkins, Michael R. Hudec, Dan Jarvie, Fang Lin, Wahid Rahman, and Geoff Thyne.
