ON COVER – Bluffs along Sycamore Creek near its confluence with the Rio Grande in southwest Texas expose the middle and upper Eagle Ford Formation and the overlying Austin Chalk. See related article by Ferrill et al., p. 2477 of this issue of the *Bulletin*. Photo by David A. Ferrill.

ARTICLES

<i>Faulting and fracturing in shale and self-sourced reservoirs: Introduction</i> David A. Ferrill, Alan P. Morris, Peter H. Hennings, and David E. Haddad	2161
<i>Natural fractures in shale: A review and new observations</i> Julia F. W. Gale, Stephen E. Laubach, Jon E. Olson, Peter Eichhubl, and András Fall	2165
<i>The role of seismic attributes in understanding the hydraulically fracturable limits and reservoir performance in shale reservoirs: An example from the Eagle Ford Shale, south Texas</i> Robert Bodziak, Kit Clemons, Andy Stephens, and Robert Meek	2217
<i>Geomechanical modeling of hydraulic fracturing: Why mechanical stratigraphy, stress state, and pre-existing structure matter</i> Kevin J. Smart, Goodluck I. Ofoegbu, Alan P. Morris, Ronald N. McGinnis, and David A. Ferrill	2237
<i>Deformation conditions for fracturing in the Middle Devonian sequence of the central Appalachians during the Late Paleozoic Alleghenian orogeny</i> Mark A. Evans, Amanda DeLisle, Jeremy Leo, and Christopher J. Lafonte	2263
<i>Characterization and development of subsurface fractures observed in the Marcellus Formation, Appalachian Plateau, north-central Pennsylvania</i> Scott Wilkins, Van Mount, Keith Mahon, Andrew Perry, and Jon Koenig	2301
<i>The concept of joint saturation and its application</i> Yunhui Tan, Thomas Johnston, and Terry Engelder	2347
<i>Failure of cap-rock seals as determined from mechanical stratigraphy, stress history, and tensile-failure analysis of exhumed analogs</i> E. S. Petrie, J. P. Evans, and S. J. Bauer	2365
<i>Failure modes of shales and their implications for natural and man-made fracture assemblages</i> Atilla Aydin	2391
<i>Natural fractures in a United Kingdom shale reservoir analog, Cleveland Basin, northeast England</i> Jonathan Imber, Howard Armstrong, Sarah Clancy, Susan Daniels, Liam Herringshaw, Ken McCaffrey, Joel Rodrigues, João Trabucho-Alexandre, and Cassandra Warren	2411
<i>Geomechanics of hydraulic fracturing microseismicity: Part 1. Shear, hybrid, and tensile events</i> Seth Buseti, Wenjie Jiao, and Ze'ev Reches	2439
<i>Geomechanics of hydraulic fracturing microseismicity: Part 2. Stress state determination</i> Seth Buseti and Ze'ev Reches	2459
<i>Control of mechanical stratigraphy on bed-restricted jointing and normal faulting: Eagle Ford Formation, south-central Texas</i> David A. Ferrill, Ronald N. McGinnis, Alan P. Morris, Kevin J. Smart, Zachary T. Sickmann, Michael Bentz, Daniel Lehrmann, and Mark A. Evans	2477

ACKNOWLEDGEMENTS—
AAPG thanks
the AAPG Foundation
for financial support of this issue of the *Bulletin*.
